

Reorder Your Homepages

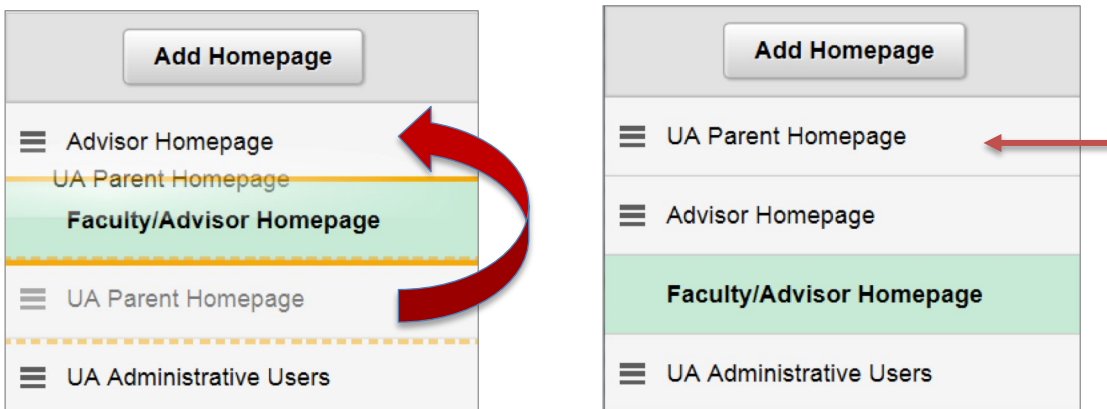

If you have more than one **Homepage**, you may want to change the order so a different one will open when you log in to UAConnect. These instructions will assist you in making that change.

It is important to note that this feature is only available to **Faculty** and **Administrative** users only.

1. From your current homepage, click the **Action Menu** icon in the banner.
2. Click **Personalize Homepage**.

3. In the left menu **click and drag** the homepage you want as your starting page to the top position.

4. Click **Save**.
5. Sign out and log back in to UAConnect. Your new homepage will open.
